Why IoT ?

IoT is the next digital revolution which is going to change our lives in ways never imagined before. You can explore many real-life examples of IoT devices that are commercially available, and you will have a glimpse of the future of the Internet of Things. This course will help you to gain adequate knowledge on the state of the art of IoT, its application and important implementation issues. You will also get hands-on exposure on various IoT hardware platforms.

Focus Areas

- IoT Application Case Studies.
- IoT sensors and their components, and Security
- Integration with Cloud.
- Regularly deployed Sensors for IoT applications.
- Cloudify: Implementing IoT Protocols on the System Setup
- Routing in sensor networks for IoT civilian applications

Benefits and Outcomes of the Course

- Enhanced knowledge of fundamentals and advanced topics for Teaching and Research.
- Networking with the people from premier institutions from India and abroad.
- Visiting state-of-the-art research facilities.
- Not only theoretical concepts but also the practical understanding of the concepts of IoT.

Objective of the Course

- Getting insights into pursuing research in IoT.
- Understanding basics to initiate teaching, research, and development in Wireless Sensor Networks (WSN), and Internet-of-Things (IoT).
- Gaining Knowledge of Advanced topics like Fog computing, Edge computing, Mobile Edge Computing, etc
- To present the state of the art of IoT architecture.
- Development of Applications in IoT.
- Project-oriented implementation to gain a complete knowledge of a specific application.

Program Features

- The program is split into lectures and labs sessions.
- Hands-on experience on basic & advanced-level topics.
- Certificates to the participants by E&ICT Academy IITR.

EICT Academy IITR

Electronics and ICT Academy (E&ICT) at IIT Roorkee (funded by Ministry of Electronics and Information Technology) aims to enrich and upgrade teaching and research competences of engineering faculties of institutes/colleges by conducting courses and workshops in fundamentals as well as emerging areas of E&ICT and enabled areas. The programs are conducted by well-known industry partners, resource persons from leading academia and experts from renowned R&D organizations.

Activities of the Academy

- Specialized training on basic and advanced level topics with hands-on experience in the emerging areas of Electronics & ICT.
- Setup the activity centers to conduct FDPs locally at institutes/colleges.
- Curriculum development for the industry.
- Continuing Education Programme for students/working professionals.
- Design, develop and delivery of specialized modules for specific research areas in industry.
